kaggle TOP 3 FINISHES

INSURANCE & BANKING   **HEALTHCARE**   **FINTECH**   **ON-DEMAND SERVICES**

Why Machine Learning?

DATA
———
is the new oil

Machine Learning

———

monetizes the data

Broad Applications of Machine Learning in Insurance

UW/ QUOTING/ INSPECTION/ REPORT ORDERING

RETENTION & LIFE TIME VALUE

REVENUE

COST

MARKETING & DISTRIBUTION

CLAIMS MANAGEMENT

PREDICTING FRAUD, LITIGATION AND SUBROGATION
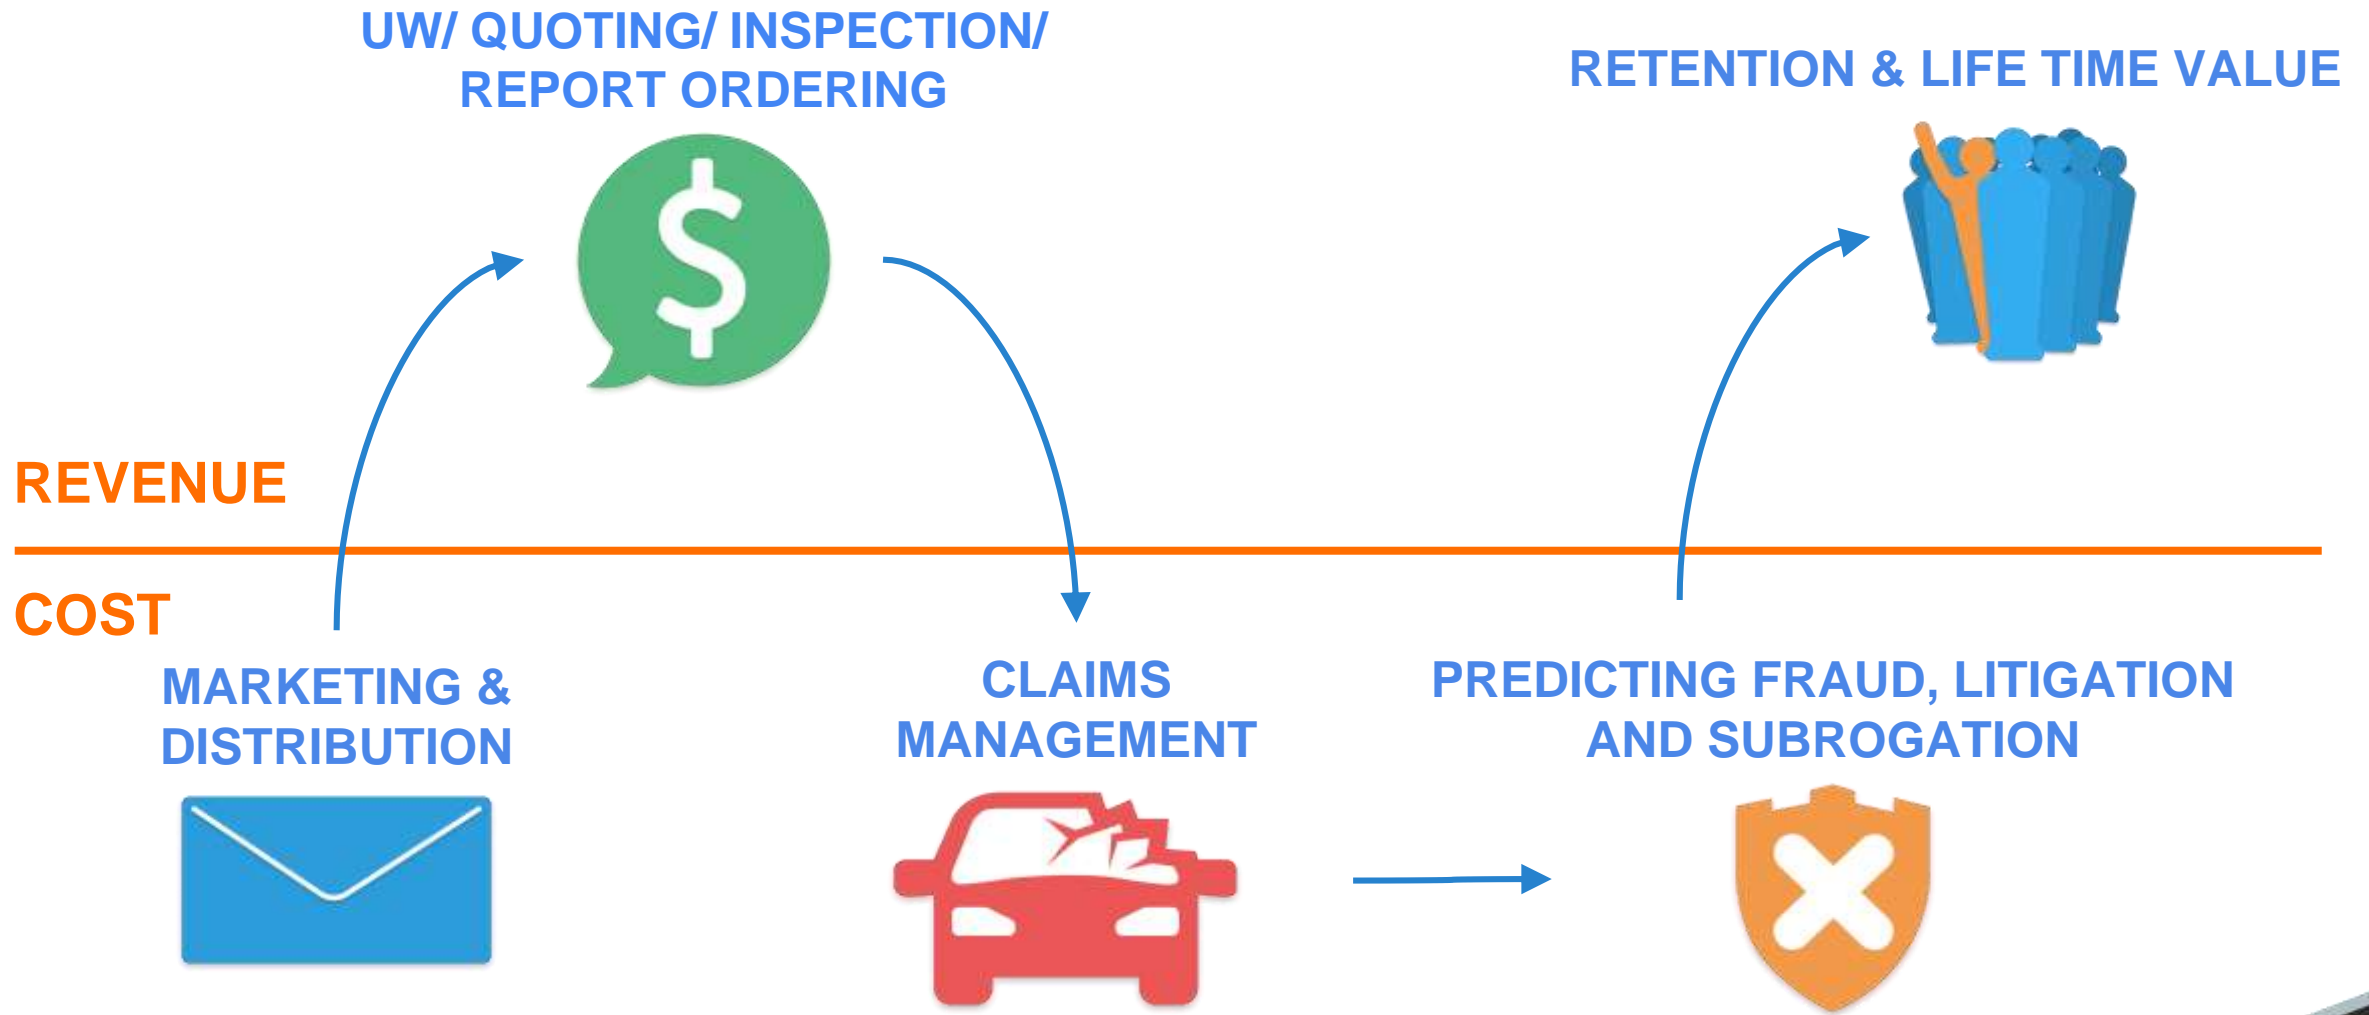

DataRobot

# *Challenges that Every Organization Is Facing Today ...*

1 *DEVELOPMENT* IS NOT SCALABLE
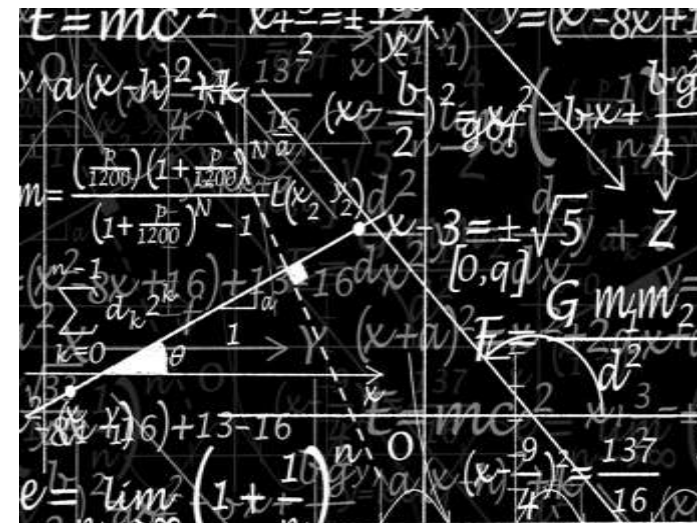

2 *DEPLOYMENT* IS COMPLEX

3 *NOT* END-USER CENTRIC

DataRobot

*Using Artificial Intelligence (AI), DataRobot built **Automated Machine Learning** and addressed these three challenges.*

PRESENTING:

DataRobot

DataRobot automates machine learning to unleash the power of AI for mainstream businesses, of any size.

THE FOURTH INDUSTRIAL REVOLUTION

Work that previously required the expertise of highly skilled and expensive data science teams can now be put directly in the hands of business executives and analysts.

Thank you!
